MODEL GP7G54

VARSITY JAM, ADJUSTABLE BASKETBALL SYSTEM

RECOMMENDED APPLICATION

The Varsity Jam unit is designed for applications requiring a durable adjustable basketball system including outside use, such as churches, small parks, playground, or residential setting.

SPECIFICATIONS:

POST / EXTENSION ARMS

The GP7G60 basketball system shall have a 5" square welded steel post. The post shall be surface-mounted with a bolt-to-ground design to allow for easier installation and system transportability. A anchor template, 5/8" diameter anchor bolts and 3/8" diameter rebar shall be included. The unit shall have two extension arms which connect to the post with a large diameter pivot bolt. The lower lifting arm connects directly to the goal/board mount and the upper extension arms connect to the welded steel backboard frame. The extension arms shall be comprised of welded rectangular steel tubing and shall provide a 2'-1 3/4" distance from the backboard to the post at the 10' playing height. The extension arms shall be adjusted by a heavy duty actuator to enable the backboard and goal to be raised and lowered effortlessly at any height between 7'-6" and 10'-0". The actuator shall have a removable handle for security and a calibrated goal height indicator. The post and extension arms shall be powder coated black to prevent rust.

BACKBOARD

The backboard shall be a Gared model BB5434G38 Rectangular Glass Backboard. The backboard shall be comprised of 3/8" thick tempered glass permanently attached to a steel tubular frame with aluminum extrusions. Overall dimension of the backboard shall be 34" in height and 54" in width. Backboard shall be clear view design with no center struts. The lower lifting arm is mounted directly to the goal attaching plate and the upper arms shall attach to the outer edges of the steel frame. Backboard shall also have 4" vertical and 4" horizontal mounting holes for attaching rim.

RIM

The rim shall be a Gared model 725 Breakaway Rim. Rim shall have an official size 18" rim of 5/8" diameter steel with a continuous no-tie net attachment and full wing brace design. The rim shall have 4" vertical and 3-4" horizontal mounting holes for attaching to backboard. Rim shall have a durable orange powder coat finish and includes a nylon net.

ACCESSORIES

LSCE54– 54" Recreational Pro-Mold Backboard Padding
PP5WR – Wrap-Around Pole Pad for 5" Square Posts OR
